

Hello Friend;

It has been an [absolutely amazing year](#) for New Harvest, and it's only going to get better.

In the new year we're going to be relocating to NYC, hiring a Development Director, working with major organizations to extend New Harvest's reach and impact, and taking the new exciting food technologies we've been advancing to debut at the World's Fair. Above all, we'll be ensuring researchers and entrepreneurs have the funds to get their world-changing ideas out there.

We aren't waiting for the future to arrive - we're on the ground, building the future we want.

To build that future, we need to think about what we can do *today*.

*Today*, we're kicking off our year-end fundraising campaign with a gift match. Your \$100 gift becomes \$200.

This is just the beginning of a sustainable revolution in food. The beginning is where your contribution will make the biggest difference.

Take care and have a great weekend,
