

Dear Friend,

An anonymous donor will match all October donations up to \$100,000!!

I hope you will seize this opportunity to double your support for New Harvest's critical work. [Donate now!](#)

Proceeds will go towards our new seed grant program: grants to scientists conducting groundbreaking, exciting, and promising research to harvest animal products from cell cultures rather than from animals.

Your doubled support will help us increase our impact, like starting the first U.S. cultured meat laboratory at the University of Minnesota earlier this year, funding Dr. Mark Post's work towards animal-free media for cultured meat, and upcoming New Harvest fellowships in leading tissue engineering labs.

These successes would not be possible without your support.

Thank you for joining us in building a better future!
