

ANNOUNCEMENTS

The latest news from New Harvest:

- We're so excited that our second PhD grantee **Natalie Rubio begins her studies in cellular agriculture with Professor David Kaplan at Tufts University today!** Natalie is the first recipient of the New Harvest Cultured Tissue Fellowship, and the first American to pursue a PhD in cellular agriculture - [read more about her research here!](#)

- **Photos from the New Harvest 2016 conference are now up!** Check out our [album on Facebook](#), and watch this space for video, which will be released soon!
- Our [survey gathering your thoughts on New Harvest 2016](#) is still up! Please take a moment to share what you enjoyed about the conference and any ways that you think we can improve it for the future. We've compiled the responses from attendees that we've received so far on [Medium](#).

UPCOMING EVENTS

- Isha will present at [Media Evolution's The Conference August 16 - 17 in Malmö, Sweden](#). Tickets have already sold out, but waitlist positions are available.

NEW HARVEST FEATURES

This week's original stories by our staffers and volunteers:

- Erin has written a **blog post reflecting on the New Harvest 2016 experience** - check it out [here!](#)

FROM AROUND THE WEB

Our favourite content this week about the world of cellular agriculture:

- Did you know that Impossible Foods' **Impossible Burger is a product of cellular agriculture**? The heme that gives the burger its bloody look and taste is produced by taking the soybean gene that encodes the heme protein and transferring it to yeast! The burger is currently being served at Momofuku Nishi in New York City, with a San Francisco debut to follow in the fall. Momofuku founder and chef [David Chang cooked the burger live for Munchies](#). Isha will be tasting the burger this week!

- Virginia Chamlee explores the [new wave of alternative protein for Eater](#), looking at **plant based "meats", cultured meat, and everything in between**.

EMPLOYMENT OPPORTUNITIES IN CELLULAR AGRICULTURE

- Want to work at the intersection of fashion and biotech? **Modern Meadow is hiring!** The Brooklyn-based team creating bio-fabricated leather is growing, with openings for a number of positions. [Check out their website for more info](#).
- Do you want to disrupt the food space by creating the world's first animal-free egg white? **Join Clara Foods!** Our second startup, Clara Foods, is looking for molecular biologists to join their San Francisco-based team. For more information, [check out their posting on LinkedIn](#).
